1. PORT CHARGES ON SHIPS

NOTES

Charging basis

Charges will be based on the gross tonnage of the ship determined by reference to an International Tonnage Certificate (1969) or a provisional statement of tonnages as agreed by the International Convention on Tonnage Measurement of Ships (1969).

“Ship” includes every description of vessel used in navigation.

Charges are payable at a rate appropriate to either the inward or outward voyage, whichever is the greater.

These charges are ‘ships dues’ for the purposes of the Harbours Act (NI) 1970.

A. Ordinary Charges

Ships dues shall be charged on the “Gross Tonnage” at the following rates:

	Per GRT

2. Ships carrying dangerous goods in bulk	POA
3. Cruise vessels and vessels on a regular service	POA
4. Project work, such as those engaged in windfarm maintenance or construction	POA

The above rates are subject to a minimum charge of £201 for any commercial vessel using the harbour for any purpose.

Any vessel not being able to produce an International Tonnage Certificate (1969) or a Provisional Statement of Tonnages as agreed by the International Convention of Tonnage Measurement of Ships (1969) shall submit the relevant papers to Larne Harbour Limited for inspection in order that a provisional tonnage can be calculated.
